

CT-39A Packet Interface Cable

The CT-39A is a convenient interface cable for connection of a Terminal Node Controlled (TNC) to any Yaesu transceiver equipped with a 6-pin mini-DIN data jack for packet.

Complete operating and jack pin-out information may be found in the Instruction Manual for your particular transceiver. Use the color code information below for connection to your TNC.

Wire Color	DATA Jack Pin #	Function
Brown	1	Data Input (TX Audio)
Red	2	Data Ground
Orange	3	PTT (Push to Talk)
Yellow	4	RX Data (9600 bps)
Green	5	RX Data (1200 bps)
Blue	6	Squelch Status
